

Angie Chen Button: Low Impact, No Results
Button won't stand up TO Trump or FOR House District 112

Republican State Representative Angie Chen Button refuses to stand up to Donald Trump's corruption, incompetence, and division. Button has condoned Trump's attacks on women, members of our military and Texans of color. In return, Trump-backed corporate special interests have returned the favor to Button in the form of hundreds of thousands of dollars to her campaign.

Button's passive and low-key nature serve as effective camouflage for a burnt out and sold out politician. Her financial ties to special interests and her votes against the best interest of Dallas-area families are straight out of the Trump playbook.
