Mike Guevara Goes With Trump Over Texans
Guevara advances Trump's extreme, divisive, partisan agenda

In a year when Texans are looking for smart, caring, consensus builders, Mike Guevara is taking a much different approach - running on an ideologically extreme, partisanly driven agenda that is out-of-touch with Williamson County families. Guevara puts blind loyalty to the Trump Republican over common-sense. Earlier this year, Guevara praised Trump for the "gains" in American under his presidency and refuses to even speak out, much less condemn, Trump's botched response to the Coronavirus that has left over 160,00 Americans dead and millions more out of work.

As a candidate for State Representative, Guevara is looking to bring the Trump-agenda to the State House. Here's how:

- **Dismantling Affordable Healthcare:** Mike Guevara has embraced the Texas GOP platform and its calls to dismantle access to healthcare in the midst of a global pandemic .pandemic. The platform calls for the repeal of the Affordable Care Act (ACA) that protects Texans with pre-existing conditions and provides access to quality, affordable healthcare and prescription drugs. The platform also calls for Trump Republicans like Guevara to continue to block the expansion of healthcare for over 1 million Texans.[1]

- **Attacks on Texas Women**: Guevara stands in lockstep with Trump's attacks on women. He opposes measures to protect healthcare access for Texas women and supports the Texas Republican platform that opposes reproductive healthcare choices even in cases of rape, incest and the life of the mother.[2]

- **Opposed essential services to keep children and families safe:** While campaigning for the Cedar Park City Council, Mike Guevara pledged to oppose common-sense efforts to create essential city services that would prevent children and families from being thrown out of their homes and living on the streets or in their cars.[3]
