

## ***Jacey Jetton: A Political Operative Not a Public Servant***

### ***Jetton resume reveals extreme partisanship and support of the Trump-GOP***

As Texas voters look for problem solving leaders dedicated to creating jobs and restoring livelihoods destroyed by the COVID-19 pandemic, Jacey Jetton is offering a very different type of message. Jetton is a career partisan Republican activist who has always stood for a rigid ideology over common-sense. Jetton was the Republican Party Chair in Fort Bend County. During his tenure as Party Chair, Jetton enthusiastically promoted Donald Trump's destructive agenda for Texans.

In the legislature, Jetton would bring the same Trump-inspired partisan division and destructive agenda he has been promoting for years.

**Far-right affiliations:** In response to attempts to expand healthcare options for American families, Jetton [joined with partisan](#) activists [to form a Tea Party-aligned group](#). He joined efforts to cancel the Affordable Care Act, and to cut Social Security and Medicare. Now, Jetton is affiliated with Trump-aligned interests that are working to dismantle public schools and shift taxpayer dollars to unacceptable private schools<sup>1</sup>.

**Failed COVID response:** Jetton has ignored the advice of public health professionals and scientists in responding to the COVID-19 pandemic. Jetton [joined with Trump allies to push for a failed reopening plan](#) that left Texans sick, mourning lost loved ones and a stagnant economy for families. Before COVID, Jetton served as the Fort Bend GOP Chair, and promoted the Texas GOP platform [that calls for abolishing the Affordable Care Act](#) that provides Texans access to affordable healthcare and life saving prescription drugs needed during a global pandemic<sup>2</sup>.

**Business failings:** On at [least three separate occasions](#), Jetton had his right to do business revoked by the state of Texas for tax forfeiture, including once earlier this year<sup>3</sup>.
